Education

University of California, Berkeley , Berkeley, California	Graduation: May 2023
Master of Engineering in Mechanical Engineering	GPA: 3.861/4.0
Texas A&M University , College Station, Texas	Graduation: May 2022
Bachelor of Science in Mechanical Engineering	GPA: 3.594/4.0

Professional Experience

Boeing , Seattle, Washington	May 2021 - August 2021
<u>Boeing Test & Evaluation Flight Test Design/Build Intern</u>	
<ul style="list-style-type: none">Responsible for the design, prototypes, manufacturing, and installation of foreign object debris shields within 4 777X aircraftsDeveloped parts, drawings, and assemblies using 3D modeling software CATIA V5, Enovia, and IVT for alignment within the aircraftsWorked closely with lead design engineers in overseeing the project management for the installation of essential test equipment designed to manipulate the center of gravity and electrical load throughout an aircraft during flight testing	
ExxonMobil , Houston, Texas	June 2020 - August 2020
<u>UIS Wells Digital Innovation & Automation Intern</u>	
<ul style="list-style-type: none">Developed and enhanced a SharePoint tool that captured and distributed learnings found during the Well construction processMet and discussed with numerous Well Engineers to design a seamless user interface and data collection using Nintex Forms/Workflows, JavaScript, jQuery, HTML, CSS, along with VBA within ExcelConstructed a repository that held drilling and onboarding information that benefited current and future ExxonMobil Well Interns	
Northrop Grumman , Palmdale, California	May 2019 - August 2019
<u>Technical College Intern, Aerospace Systems, Top-Secret Clearance</u>	
<ul style="list-style-type: none">Assembled and tested electronic, mechanical, and electromechanical systems to ensure consistency and qualityConstructed models, assemblies, and engineering drawings using 3D modeling and design software, CATIA V5, to fabricate solutionsFacilitated the development of a Subsystem Design and Analysis Lab at the request of sector leadership	

Projects

Blue Goji: Omni-Directional Treadmill , Berkeley, California	August 2022 - May 2023
<ul style="list-style-type: none">Improved the industrial design and overall efficiency of an Omni-Directional treadmill by enhancing manufacturability and assemblyDesigned the real-time controls responsible for tracking and maintaining a user's position using Python, OpenCV, and MediaPipeCreated and managed comprehensive project plans, including timelines, budgets, BOMs, and resource allocation for a team of 10	
Gambit , College Station, Texas	January 2021 - May 2023
<ul style="list-style-type: none">Persistently applied mechanical, electrical, and computer software knowledge to design and manufacture an intelligent chessboardDeveloped algorithms to efficiently orchestrate the sensing, motion, and chess engine subsystems using C++ programmingPerformed market research by analyzing surveys and design methods to uncover customer needs to ensure a desirable product	
Gimbal , Berkeley, California	February 2023 - March 2023
<ul style="list-style-type: none">Independently designed and developed a 3-axis sliding gimbal for a webcam by incorporating user-centric design principles, product protection, and manufacturing considerations while using only readily available materials and toolsLed end-to-end design process, from conceptualization, 3D modeling, prototyping, and analysis, to final model within 7-day timeframe	
Apple Vision Pro Packaging , Waxahachie, Texas	June 2023 - July 2023
<ul style="list-style-type: none">Independently designed and developed packaging solutions for the unreleased Apple Vision Pro spatial computing headset by incorporating user-centric design principles, product protection and sustainability considerationsLed end-to-end packaging design process, from conceptualization to 3D modeling and analysis within a seven-day timeframe	

Leadership Experience

University of California, Berkeley , Berkeley, California	September 2022 - May 2023
<u>Master Of Engineering Student Ambassador</u>	
<ul style="list-style-type: none">Engaged with prospective students by representing the Master of Engineering program with an aim to recruit and informOversaw the creation and execution of events for the 2022-2023 cohort to establish a greater sense of community and connection	
Society of Hispanic Professional Engineers , College Station, Texas	May 2021 - May 2022
<u>President</u>	
<ul style="list-style-type: none">Led 8 board members to continuously impact members through professional, academic, technical, and social development which resulted in more than 400 members registered with the organization, a 74.7% increase in members from the previous yearCoordinated a 36.2% increase in corporate sponsorship and a 181% increase in general event attendance from recorded metrics through new initiatives tailored for professional, academic, social, and technical developmentOversaw 2 committees that were focused on improving the efficiency of event creation and execution across the organization	

Skills

- CAD (SolidWorks/CATIA V5), FEA, DFM/DFA, GD&T, Data Analysis, Python, JavaScript, C++, HTML5/CSS, DOE, MATLAB
